Once the download is finished, you can find the setup-file in your **Downloads** folder.

Installation

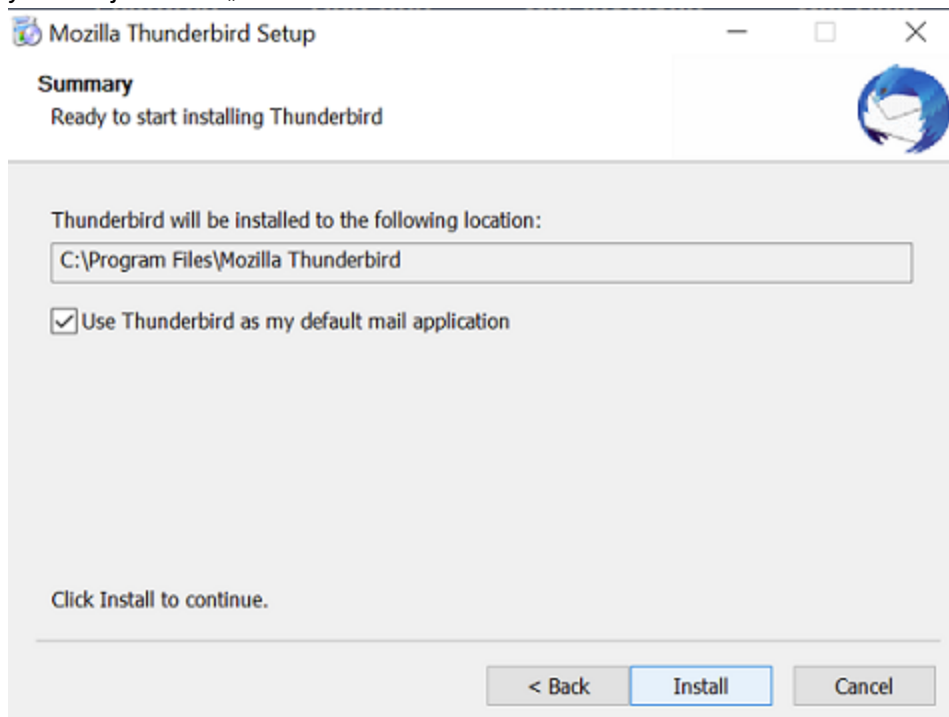

Execute the setup-file to open the **Mozilla Thunderbird Setup Wizard**. Click „**Next**“ to continue.

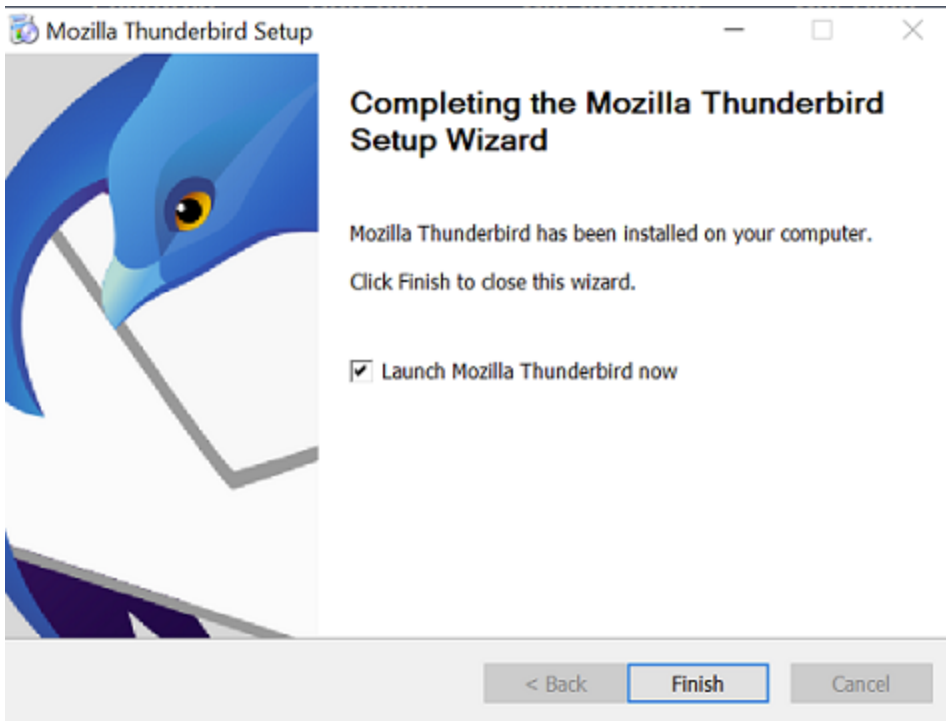

Choose the setup type „**Standard**“ and confirm with „**Next**“.

Next, you can choose the location the program is going to be saved to and confirm with „**Install**“. Alternatively, you can just click „**Install**“.

Lastly, confirm with „**Finish**“.

Thunderbird should now open and you can begin to set up your account.

Setting up your Account

To set up your account, provide your Name, your ZIMT e-mail address, and your password under „**Set up an existing e-mail account**“, and select „**Configure manually**“.

The screenshot shows a form for setting up an account. It has three input fields: 'Your full name', 'Email address', and 'Password'. Each field has a small 'i' icon on the right. Below the 'Password' field is a checked checkbox for 'Remember password'. At the bottom are three buttons: 'Configure manually' (highlighted with a red box), 'Cancel', and 'Continue'. At the very bottom, there is a note: 'Your credentials will only be stored locally on your computer.'
